## SUMMARY

Aspiring Software Engineer passionate about building efficient solutions and complex problems through innovation. Always eager to learn new things and committed to writing clean, maintainable code.

## SKILLS

**Languages** TypeScript, JavaScript, Rust, Java

**Technologies** React.js, Next.js, Node.js, Poem, Express.js, Hono, Prisma, MongoDB, Postgres, Blockchain, AWS, DevOps, Monitoring, Version Control

## WORK EXPERIENCE

### Engineer's Cradle, Pune

Sep 2024 - Jan 2025

#### (Frontend Developer Intern)

- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Completed full redesigns of existing websites to improve navigation, enhance visuals, and strengthen search engine rankings.
- Developed user interfaces with modern JavaScript frameworks and Tailwind CSS.

### Freelancer, Pune

Feb 2024 - Present

- Developed and deployed full-stack web applications using the MERN stack, implementing secure authentication and state management.
- Designed and optimized responsive UIs improving user engagement and accessibility across devices.
- Collaborated with clients to deliver scalable and maintainable web solutions, ensuring high performance and on-time project delivery.

## PROJECTS

### Paper-Whisper

[Live](#) / [GitHub](#)

A full-stack web application that allows users to upload PDF documents and interact with them through natural language. Powered by **LangChain** and **OpenAI's GPT models**, it transforms static documents into dynamic conversations.

### Vaultigo

[Live](#) / [GitHub](#)

A modern and secure cloud-based file manager that enables users to seamlessly upload, organize, and access images and PDFs within a structured folder system. Built with robust authentication and intuitive UX.

## EDUCATION

### MIT World Peace University, Pune (CGPA: 8.66)

B.Tech Computer Science

## ACHIEVEMENTS

Odoo 2025 Hackathon Finalist
